PRODUCT

INTRODUCTION

Established in 2012, BestoDental is a full-service dental laboratory in Shenzhen, China, relied upon by over 1,000 dental clinics and laboratories across North America, Europe, and the Middle East. We provide a comprehensive range of dental solutions to address global clinical demands, including E.MAX, full-cast, implant-supported restorations, and orthodontic appliances, as well as PFM and zirconia crowns.

Operating with over 200 trained technicians and a seasoned implant team with more than 10 years of experience, we support a monthly production capacity of over 30,000 dental cases — efficiently managing both high-volume routine work and complex custom restorations.

All restorations are precision-crafted using FDA-approved and CE-marked materials. Our manufacturing process is based on an efficient assembly-line workflow, ensuring consistent quality and high production efficiency.

Supported by digital technology and a quality-first mindset, BestoDental is committed to helping our partners achieve reliable, esthetic, and cost-effective outcomes for every case.

High-Volume Production Base (Huizhou)

- 30,000+ cases monthly capacity
- 200+ skilled technicians
- Full-service lab with assembly-line workflow

Overseas Fulfillment Center (Shenzhen)

- Full-service lab with 40+ skilled technicians, dedicated to international orders
- Specialized 10-person implant team
- Co-established with overseas partners, serving a global client base
